

PK MAYO

AMERICANA. ROOTS. BLUES.

BIO

Paul's natural musical talent on guitar, especially slide, both in concert and recordings, has garnered worldwide praise from his colleagues and critics. Publications *Vintage Guitar Magazine* and *Blues Matters UK* have drawn comparisons to the work of Duane Allman, Lowell George, Roy Buchanan, Ry Cooder and Sonny Landreth. His rich vocals have been receiving as much attention as his guitar tone and melodic riffs.
